INVESTMENT STRATEGY

AZ Total Return Fund has a double objective: to preserve capital whilst maximizing risk-adjusted returns through a long short strategy.

To achieve said goals, the fund will equally invest in listed equities, fixed income securities and in the most liquid futures, mainly focusing in the European periphery.

When fully invested, equities will represent 60-80% of the portfolio, while credit will range 0-40%. Average long position will be 2-5% while average short will be 1-3%.
